Mines and Mining Stocks

NEWHOUSE ON BOSTON CON. OR

Saving by Working Twenty Tons Into One.

Interviewed in Boston last Friday, Samuel Newhouse, president, had the developed several important operating Bristol Valley Mining company's prop-following to say concerning Boston economies, the details of which I am erty, is up from camp to spend a few Consolidated:

"Despite some unforeseen but not 4n-

COPPER STOCKS IN

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from which it is secured for use in this department of The Herald.

Boston, July 28.—Coppers closed very strong and active on reports of higher prices for the metal. Public interest is growing every day, and we think it safe to buy freely at this level, especially the stocks which have not moved, such as Shannon, Utah Consolidated, Greene-Cananea, Old Dominion and Calumet & Arizona. All these stocks will be big earners on a little better metal market. Copper sold at 134c today, and 14c is a near per sold at 134c today, and 14c is a near possibility. The buying of North Butte was good today and no one seems disposed to liquidate any amount. The de-mand for all the Coppers exceeds the supply, and the only result must be higher

Pope-Hartford

We have one Touring Car on which we can make immediate delivery. You surely owe it to yourself to thoroughly investigate this car before purchasing a motor car.

The 1908 POPE-HART-FORD is up to the minute in every particular, and is one of the most popular cars on the American market today.

TOM BOTTERILL AUTOMOBILE CO.

62-64 West Third South.

the time is not far distant when the iron ores of the Boston Consolidated will command a handsome premium in. addition to their copper contents. In truth, it may be said that this excess of iron is an asset which we had not reckoned with. Iron ores are not over-abundant in the Bingham camp.

"From a little lower down on the mountain, where iron excess does not Says Mill Is Making a Good greatly exceed 1 per cent, we are shipping 1,000 tons of ore daily and are making an average recovery at the smelter equal to 22 pounds of copper per ton of ore. Our extraction runs all the way from 70 to 74 per cent, and we are concentrating 20 tons into one. By Sept. 1 we should be treating 2,000 tons per day, and by Jan. 1 there will have not permitted at present to divulge. Suffice it to say that we have recently erty a strike was made that promis "Despite some unforeseen but not 4nobtained an important modification in

After a ten days' visit at the mines, during which a most critical and thorough examination or inspection was made, H. Otto Hanke, president of the Daly-Judge Mining company; E. A. Schumacher and Charles Lange returned Daly-Judge Mining company; E. A. Schumacher and Charles Lange returned from the Park Monday night and will leave for their homes in Cincinnati today on the Los Angeles Limited.

When seen yesterday afternoon President Hanke, who recoils from publicity as he would from the plage, pleaded to be allowed to go his way without getting into print at all. He was finally induced to say that he was much gratified at the condition in which he found the property and at the splendid manner in which it had been equipped under the direction of Manager G. W. Lambourne.

"I am a poor hand to give out news."

pect that the railroad will build around to the Prince Consolidated and when that is done it will be much easier and cheaper to ship ore from the Bristol side and he believes the road will be continued to the Bristol mines at the same time.

IRON BLOSSOM BOOSTED ON REPORT OF STRIKE

On the unconfirmed rumor that ore shad been cut on the 500-foot level, the

Arthur Murphy Reports Opening Ore Body in Cave in the Bristol Valley.

Arthur Murphy, superintendent of the days at home. Before leaving the proplarge producer. I am today more strongly impressed than ever before with the ultimate investment value of our property.

"When we first began the milling of our ores we discovered what no human agency could have foreseen, that in our upper workings on the porphyry there large producer. I am today more der the former contract, for an excess of silica which our ores do not contain.

"Our mill is all that we have ever claimed for it. Our process I believe to be the most economical that can be devised for the treatment of porphyry agency could have foreseen, that in our upper workings on the porphyry there large producer. I am today more der the former contract, for an excess of silica which our ores do not contain.

"Our mill is all that we have ever claimed for it. Our process I believe to be the most economical that can be devised for the treatment of porphyry ores."

After running fifteen feet a big cave was bounded at the depth stated, Superintendent Murphy decided to drift out to the north to intercept another ledge that showed a shaft 100 feet distant After running fifteen feet a big cave was bounded. The man incline shaft had been sunk to a depth of fifty feet in a vein that had shown more or less ore all the way down. At the depth stated, Superintendent Murphy decided to drift out to the north to intercept another ledge that showed a shaft 100 feet distant After running fifteen feet a big cave was bounded. The man incline shaft had been sunk to a depth of fifty feet in a vein that had shown more or less ore all the way down. At the depth stated, Superintendent Murphy decided to drift out to the north to intercept another ledge that showed a shaft 100 feet distant After running fifteen feet a big cave with the stated of \$3,070 shares of stock, with the depth stated of \$3,070 shares of stock, with the depth stated of \$3,070 shares of stock, with the depth stated of \$3,070 shares of stock, with the depth stated of \$3,070 shares of stock, with the depth stated of \$3,070 shares of stock, with the north that the fissures; how deep they are has not into them indicate considerable depth. The shaft to the north is down 100

feet and a drift from it has been run out a considerable distance. This drift ports, and it will not be long till he has opened into the cave country at an in contemplation—the Boston Consolidated will be able to show a cost per pound of copper of not exceeding eight additional depth of fifty feet. neighbor of the E. & F. properties and the Day mine of the Nevada-Utah com-

Mr. Murphy says that the Bristol Consolidated company, which owns the big properties of the Bristol district, is working about twenty-five men on its own account, while about a dozen leasers are operating certain portions of the property and are evidencly doing The company itself is develop-PLEASED AT SHOWING ing and shipping about a carload of high-grade ore a week. The revenues from this, he says, are more than meet-

ing the operating costs.

He says that there is now every prospect that the railroad will build around

of Manager G. W. Lambourne.

"I am a poor hand to give out news." had been cut on the 500-foot level, the price of Iron Blossom was advanced on know that there is anything to say that would be of public interest. I must refer you to Manager Lambourne for news. know that there is anything to say that would be of public interest. I must refer you to Manager Lambourne for news concerning the mine. I am sure he will give it to you when there is any. I have enjoyed this trip to the property immensely and was much gratified at the manner in which the mine is being opened up and with the splendid equipment that has been installed during the past year and over. I am sure you will let me off with saying so much."

Manager Lambourne stated there was nothing much to say about the mine at this time, other than that a great deal of development was being done and with substantial results. The mill is being operated only with one shift at present, while a great deal of power is being consumed in operating the machine drills in the various drifts, raises, cross-cuts, etc., that are being run. Mr. Lambourne intimated that the campaign now in hand was proving to be a most important one, and the inference was drawn from what he said that the mine is showing up unsually well.

The mining stock exchange yesterday from \$2.40 to \$2.700,000. Of course market speculators do not like to have odious or any other kind of comparisons drawn unless they serve their particular purpose, but as suggested by a conservative member of the exchange after the sessions were over, what could have happened in a property like the Iron Blossom in a day to add \$300,000 in value to its ore bodies, if it has any? But that was the price put on the disclosure by the market. Some time ago ore was encountered on the 400 level, and according to the management of the property it is not a high-grade ores are counted in Tintic. The strike on the 500 level may be better than it was on the 400, and it may not be so good, but in any event it is not considered to represent \$300,000 at the first crack of the pick into it. It takes a pretty good mine to command a price of \$2,700,000. Iron Blossom is not a mine; it is simply a good prospect.

There are a number of pretty good in the first crack of the pick into the first crack

DOINGS OF UNLISTED STOCKS ON EXCHANGE

During the open board trading yesterday East Crown Point sold at 4½c, Mason Valley sold at \$1.35 and \$1.40 cash, and at \$1.30 seller thirty days. Ohio Copper dropped 100 shares at \$2.90 and Silver King Coalition went at \$4.

Ring Coalition went at \$4.

Bingham Standard Copper was quoted at 20c bid, Demijohn at 14c bid and Old American at 20c bid, while Consolidated Jefferson was offered at 25c, Emma Copper at 5½c, East Tintic Consolidated at 14c and Uintah Treasure Hill at 17½c a share.

Mining Notes. Five carloads of ore from Utah mines were released from the Pioneer sampler

Three carloads of ore from Nevada and two from Utah mines were released from the Taylor & Brunton sampler yesterday

Frank Worthing, who is developing properties in the Birch Creek region, Ida., is down from the north for a few George B. Earnshaw, the well known mining engineer, who is now operating in Mexico, passed through the city yesterday on his way to Los Angeles and the southern republic.

E. G. Woolley of the brokerage firm of J. S. Pollock & Co., who has been visiting in the east for a couple of weeks, accompanied by Mrs. Woolley, was at his place on the rail in the stock exchange pit again yesterday morning. Manager W. J. Craig returned from a trip of inspection to the Kennebec company's properties in the Little Cottonwood district Monday night. He said there was nothing new as yet to report concerning conditions at the mine.

The Shoshone Quicksilver Mining company filed articles of incorporation with the county clerk yesterday. The capital is \$1,000,000 and the officers are: F. J. Davis, president; W. C. Davis, vice president; W. J. Davis, secretary and treas-

W. J. Barnes, head of the Barnes Brokerage company of Rawhide and Goldfield, is in the city for a day or two on his way back to Rawhide after a trip east. Mr. Barnes is the publisher of the Little Bradstreet, which contains information concerning more than 200 of the best mining properties in Nevada. Mr. Barnes frankly admits that Rawhide has been over-boomed and he states that the district is now suffering as a result of it. He stoutly contends, however, that there never was a camp started that could make such a showing at the end of seven months' time. He says the district is a big and a rich one and that it is growing better every day, strictly on its merits.

MINING STOCK EXCHANGE.

The market behaved pretty well yesterday and trading was scattered through a wide range of stocks. The feature of the day was the big boost given Iron Blossom in the afternoon on a report that ore had been cut on the 500-foot level at the mine. In the morning the stock was a free offering at \$2.20. It was started in the afternoon at \$2.35 and before the close of the open board session it had sold at \$2.70. Crown Point recovered from its slump of Monday and closed at 26c.

43,000 Acres Carey Act Lands

The largest reservoir in Utah at Sevier bridge, the great diverting dam at Riverside and main Carey canal, 30 feet wide, now complete. Laterals under construction. From sagebrush to an imperial country in a year. Great deposits of exhaustless delta soil land and ready for the plough.

Come to this sunland, with its pure aid and natural lithia water flowing to the surface, where crops are abundant and markets best in the west. Alfalfa, sugar beets, hay, grain, fruits, vegetables, berries, livestock, are money-makers. Two hundred to \$500 per acre on asparagus, onions, tomatoes, celery, cantaloupes, etc. Alfalfa always yields \$50 to \$60 and a sure crop. Seventy-five thousand acres of land in this valley. Uncommon opportunities for the homeseeker, investor or business man of energy.

Get a book of particular information, complete with maps, halftones, etc.. the statements in which cannot be controverted.
